VOL. III. NO. 28.

CALIFORNIA THREE-YEAR-OLDS.

A good judge of racing sends the following gossip from San Francisco to DAILY RACING FORM:

"You might be interested in some of the turf gossip of the Coast and as I have more time than anything else I will send you some of my ideas of form and some of the news.

In the first place, I do not believe there is a real good horse in training in California, either among the youngsters or the older division, and yet there are so many useful horses, and as a consequence so many well balanced fields that the racing is about the best I have ever seen from a spectacular point of view.

Unless some one has a "sleeper" buried I am certain that there is not a good three-year-old in California. I had a great faith in Casper and from last spring thought that he was about as good as Algol or Typhoon. He has disappointed his stable grievously until lately. When he started first he ran about half a mile and blew up, the next time he went a trifle further but not until the last ten days has he shown any thing but a flash of speed. Good Times beat him handily at seven furlongs early while it took his life to head out Estaca for the place. I saw both of these colts race at St. Louis and Estaca was well tried out there with the best. He could not make them gallop. On his racing it looks as though Candelaria would have to be the second dependence of the Burns & Waterhouse string in three-year-old races over a distance of ground. He is a grand looking big colt by Midlothian, a whole lot larger than the majority of this horse's get and would be pretty nearly a good horse if he was a little more robust and a better doer in the stable. On form just now Barney Schreiber's gelding Aquinas, by Belvidere, is the best three-year-olds in training on the Coast. He gave Candelaria (a colt) a pound in actual weight and beat him and then made Howard S and Casper look awfully cheap, all with weight up at seven furlongs. It was probably not a fair test, as Howard S cannot run in the mud; still it must be admitted that a horse at home in all kinds of going is a more useful racing machine than one that must have a track made to its order. Early too Zamar II on form classed right up with the others. But later racing dispels this idea.

Sizing up the two-year-olds of last year in the whole expanse of American racing supremacy it narrows down to two colts—Algol and Ogden. Many Eastern critics will take exception to this, doubtless claiming that Ornament must take rank with the two first named. I saw Ornament race at St. Louis, where he hooked up twice with Algol and Typhoon. The first time he broke from behind, went to the front and after knocking Algol to his knees on the far turn and nearly carrying Typhoon over the fence at the head of the stretch finished outside of the first three, Moncreith winning a race which, in my opinion, did not belong to him. The colts met again, this time on a good track and all with weight up. Ornament got away badly, but I have always thought that he could have been no better than third had he gotten off clear. Algol laid within a length of Typhoon and galloped over him when he got ready. I firmly believe that Algol on that day was the best two-year-old in America. He trained off from that race but was himself again in the late fall.

Typhoon went East and beat Ornament again. Again the claim was made that Ornament should have won. I have before me the form chart published at the time in RACING FORM. It shows that Ornament was off sixth and Ogden seventh.

At the quarter Ogden was still seventh and Ornament was sixth, yet Ogden won by two lengths and Ornament was unplaced. The foot

notes said that "Ornament was shut off at the far turn and could never get up with the fast pace set." That seems to have been Ornament's trouble whenever he met Typhoon, viz., "that he could not keep the fast pace set."

I do not say that Typhoon and Algol will be better three-year-olds than Ornament, but I do believe that as two-year-olds they held him safe at any kind of a race. I am not taking anything from the son of Order either.

Martin has always been given the credit of throwing the race away on Typhoon in which Ogden beat him. Of course as I did not see the race I cannot judge but I think Ogden was the better horse that day. Typhoon is one of those rapid going colts that will do about all he can without any punishment. He carries his head high in the air (too high for my fancy), and a boy that sits still and holds his head up will get his best race out of him. Martin rode him in his maiden race at St. Louis and in most of his winning performances afterwards, and probably thought he could get his best race out of him by sitting still. I think so too.

(TO BE CONTINUED.)

handicap tables within its cov-
ers. The figures on two sets
of entries are given as illu-
strations to the tables. The book
contains all track records, track

The American Sporting Manual

A YEAR BOOK AND COMPENDIUM OF RECORDS

The Manual will be: A Book for the Pocket.
A Book of Authority.
A Comely Book. A Cheap Book.

It will contain all general sporting records in use. All American Turf Records. All American Track Records. A twenty-page history of all the prize fights and boxing matches of 1896, from January 1 to December 31, 1896. Two handicap tables; one reproduced from the American Racing Manual, and a new one of even sharper application to racing, never before published.

The Manual will contain the 1896 figures of Baseball, Aquatics, Football, and Athletics in general—racing, trotting, pacing and all departments of sporting. Within The Manual's covers will be 100 pages of pure sporting figures.

The American Manual's handicap tables alone are such as have been usually sold at \$50 and \$100 each. With them are published explanatory keys and three races which have been run and to which the figures have been applied. These keys show horses, estimate of ability on past races, figures on the race to be run and their position in race to which figures were fitted.

Table No. 2 is entirely new. The track records and time estimate in the book are the result of nine months daily work of five experienced men.
